

Title of the subject	: Farm animal ethology
Subject leader	: Marcell Molnár, PhD, associate professor
Prerequisite	: none
Credit	: 2
Short description of the subject	: The aim of the course is an introduction to the conception and fundamentals of ethology. Therefore, it gives an overview on the factors motivating and forming the behaviour of animals (and human), and details on the main behaviour forms of the different farm-, pet- and game animals.
Compulsory reading	: Jensen, P. (Editor) 2002 The Ethology of Domestic Animals: An Introductory Text, CABI Publishing
